Miro 101

- Use the **"select" mouse** to select a **sticky note** and start typing your thoughts

- Need to add a sticky note? Use this button:

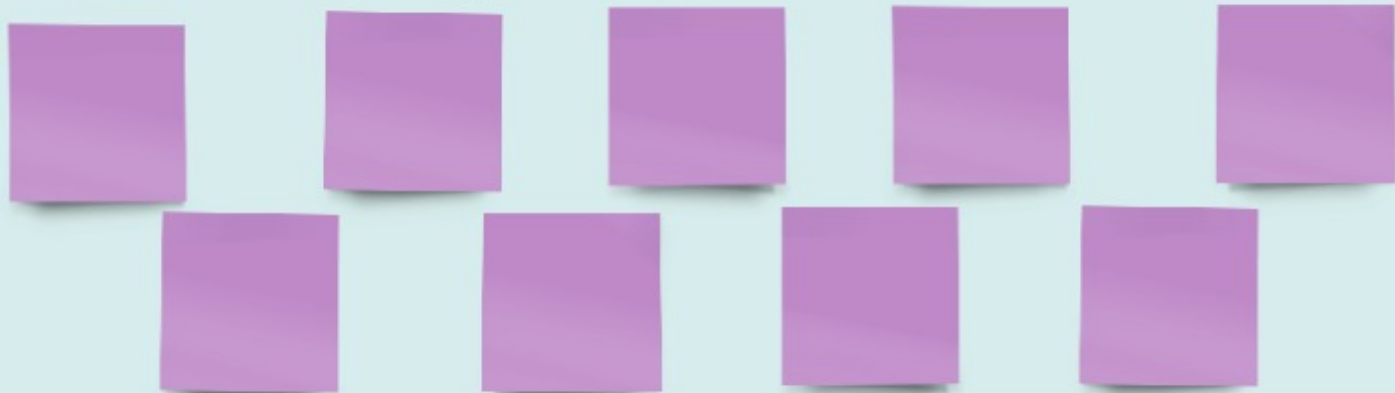

- Move the Miro board around by **clicking and dragging the white space outside of each slide**

Section 1: Energy Landscape

What are examples of clean energy projects that you, your community, or business are undertaking?

What shouldn't we include?

Other thoughts?

Section 2: Policy or Program Options

Please provide feedback, concerns and suggestions for the below policies.

Solar

Mobility

Energy Efficiency

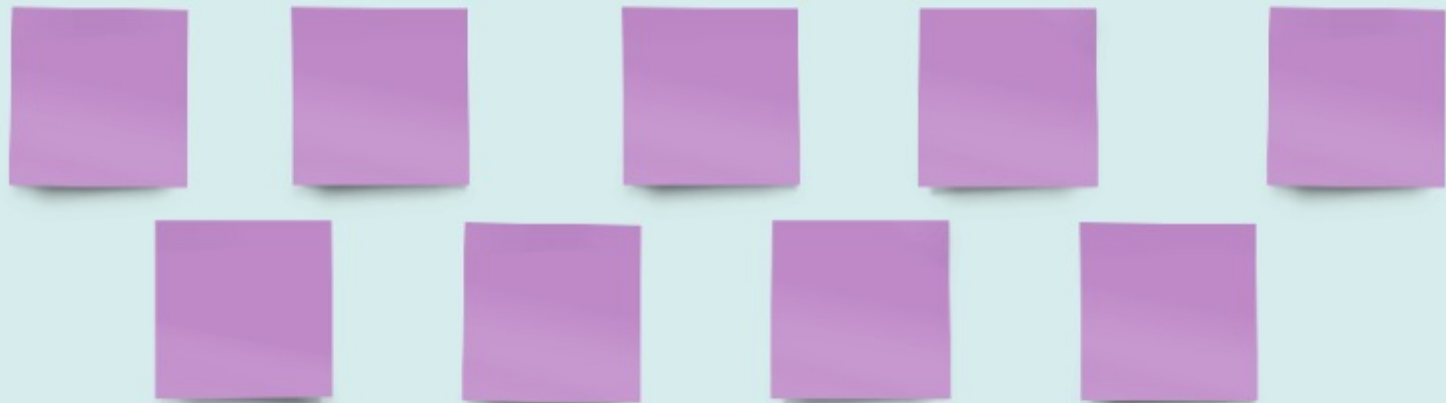

Electrification

Economic Development

Energy Performance

Section 3: Pathways to Clean & Renewable Energy

How can businesses advance Decatur's clean energy goals?

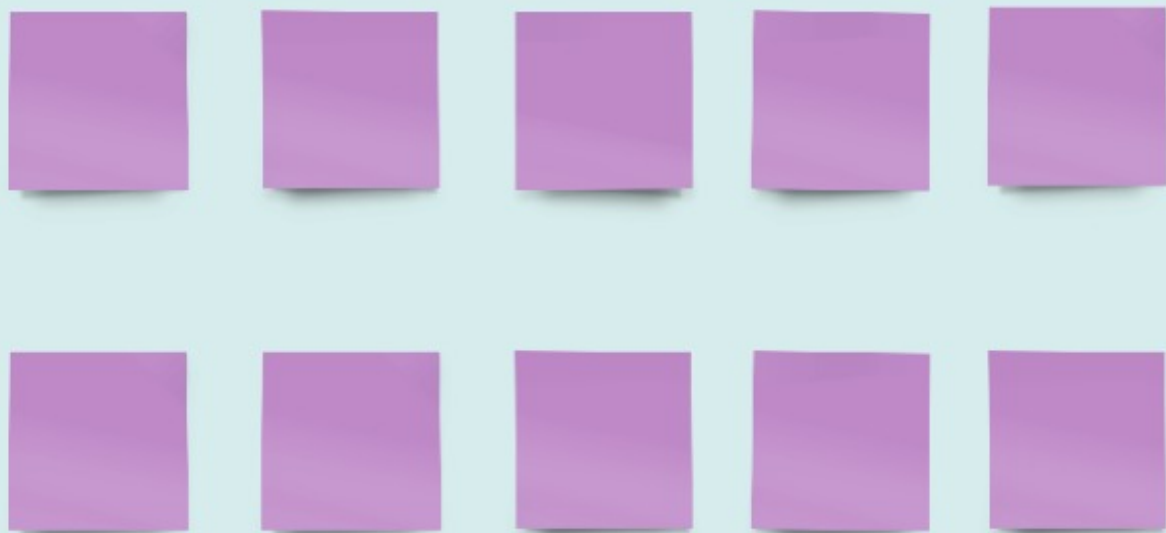

What shouldn't we do?

Section 4: Community-Wide Goals

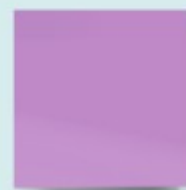

- Transportation
- Residential energy efficiency
- Commercial energy efficiency
- Water efficiency/conservation
- Residential solar
- Community solar
- Energy storage
- State-level advocacy

As someone who lives or works in the Decatur area, what is important to you in this transition?

Section 5: Next Steps

How can Decatur support and attract clean energy businesses?

What shouldn't we include?

Other thoughts?
